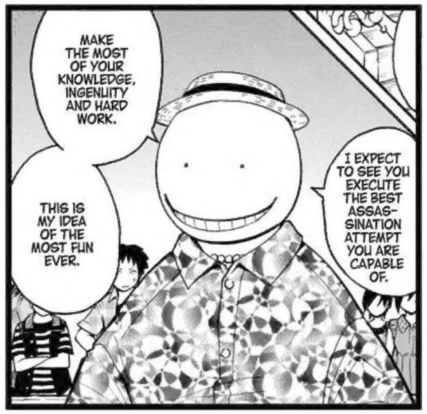
Although we have a lot of data on his weaknesses, we are still far from successfully assassinating Koro Sensei...

Story Thus Far

Kunugigaoka Junior High, Class 3-E is led by a monster who has disintegrated the moon and is planning to do the same to the Earth next March.

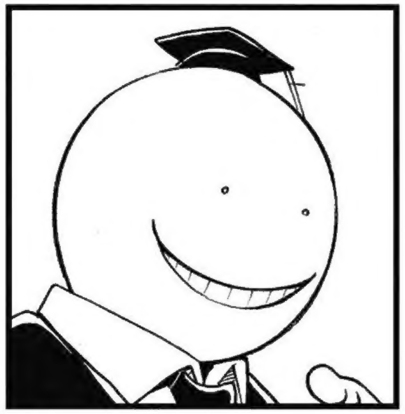


I EXPECT TO SEE YOU EXECUTE THE BEST ASSASSINATION ATTEMPT YOU ARE CAPABLE OF.
MAKE THE MOST OF YOUR KNOWLEDGE, INGENUITY AND HARD WORK.
THIS IS MY IDEA OF THE MOST FUN EVER.

Even the armies of the world, with the latest technology, can't kill the super creature Koro Sensei and collect the maximum 30 billion yen (300 million dollar) bounty! So it comes down to his students, the so-called "End Class." Thanks to Koro Sensei's dedication to them, they grow to become fine students who can even outshine the top students in their school. Likewise, their martial skills rapidly improve with the help of Mr. Karasuma from the Ministry of Defense, molding them into a professional team of assassins. The first trimester has gone by and the clock is ticking. Will they be able to successfully assassinate Koro Sensei?!

Koro Sensei

A mysterious, man-made, octopus-like creature whose name is a play on the words "koro senai," which means "can't kill." He is capable of flying at Mach 20 and his versatile tentacles protect him from attacks and aid him in everyday activities. Nobody knows who created him or why he wants to teach Class 3-E, but he has proven to be an extremely capable teacher.

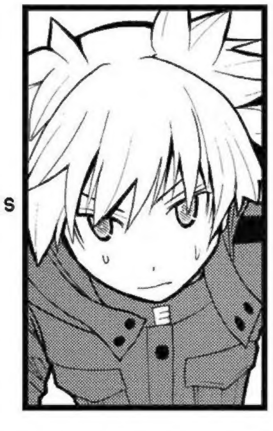


Breaking news! Koro Sensei completely revealed in his birthday suit!

THAT MEANS ...
...HE'S BUTT-NAKED?
Don't blush! He'll notice us.

Nagisa Shiota

Class E student. Skilled at information gathering, he has been taking notes on Koro Sensei's weaknesses. He has a hidden talent for assassinations and even the Assassin Broker Lovro sees his potential.

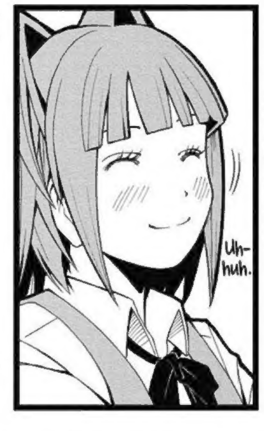


Nagisa's mother is seriously scary...

I'LL KNOCK SOME SENSE INTO YOU!

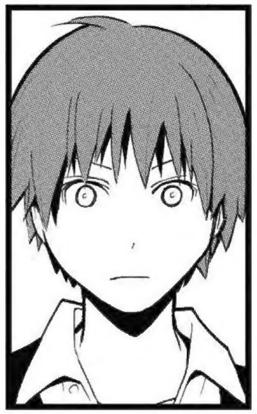
Kaede Kayano

Class E student. She's the one who named Koro Sensei. She sits at the desk next to Nagisa, and they seem to get along well.



Karma Akabane

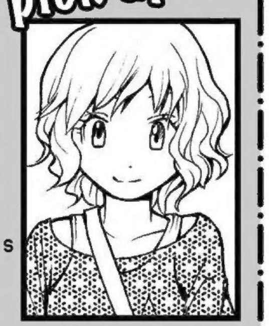
Class E student. A natural genius who gets top grades too. His failure in the final exam of the first semester has forced him to grow up and take things a bit more seriously.



Hinano Kurahashi

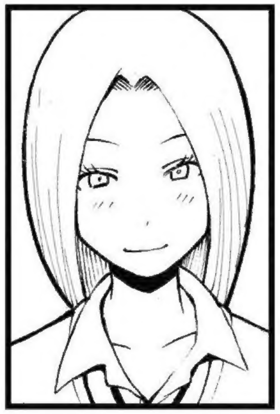
pick up!

As an animal lover, you might expect her to be an animal rights activist, but she can wring a chicken's neck or scale a fish all with a flirty smile on her face. You can tell how much she loves animals by the way she says "Thank you!" before eating them.



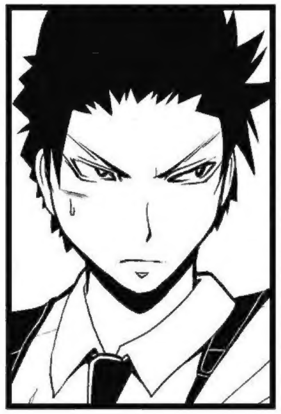
Rio Nakamura

Class E student. She was considered a prodigy back in elementary school but she longed to be "ordinary," so she pretended to be a poor student. Now she has a dream she's aiming for, so she might get more serious.



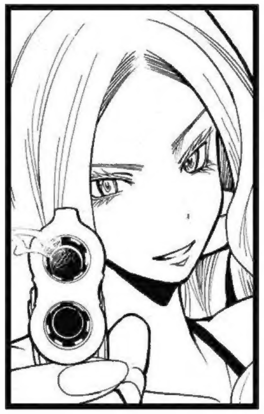
Tadaomi Karasuma

Member of the Ministry of Defense and the Class E students' P.E. teacher. Though serious about his duties, he is successfully building good relationships with his students.



Irina Jelavich

A sexy assassin hired as an English teacher. She's known for using her "womanly charms" to get close to a target. She often flirts with Karasuma, but hasn't had any success so far.

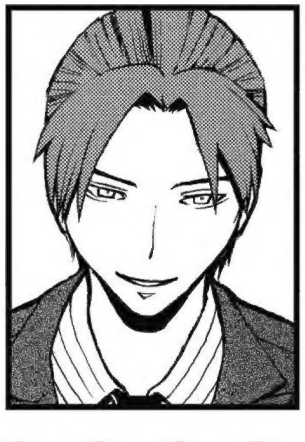


Terasaka's career choice!

Karma told everybody that politician was Terasaka's second choice. But since everyone teased him about it, Terasaka took it back right away. Nevertheless, it looks like he has already won 27 votes toward his future career.

Gakuho Asano

The principal of Kunugigaoka Academy, who built this academically competitive school based on his faith in rationality and hierarchy.



The most dangerous ride in the world!
*You have to be a super-creature to ride!

Assassination Class Roster

Always assassinate your target using a method that brings a smile to your face.

I am open for assassinations at any time. But don't let them get in the way of your studying.

I won't harm students who try to assassinate me. But if your skills are rusty, expect a good scrubbing.

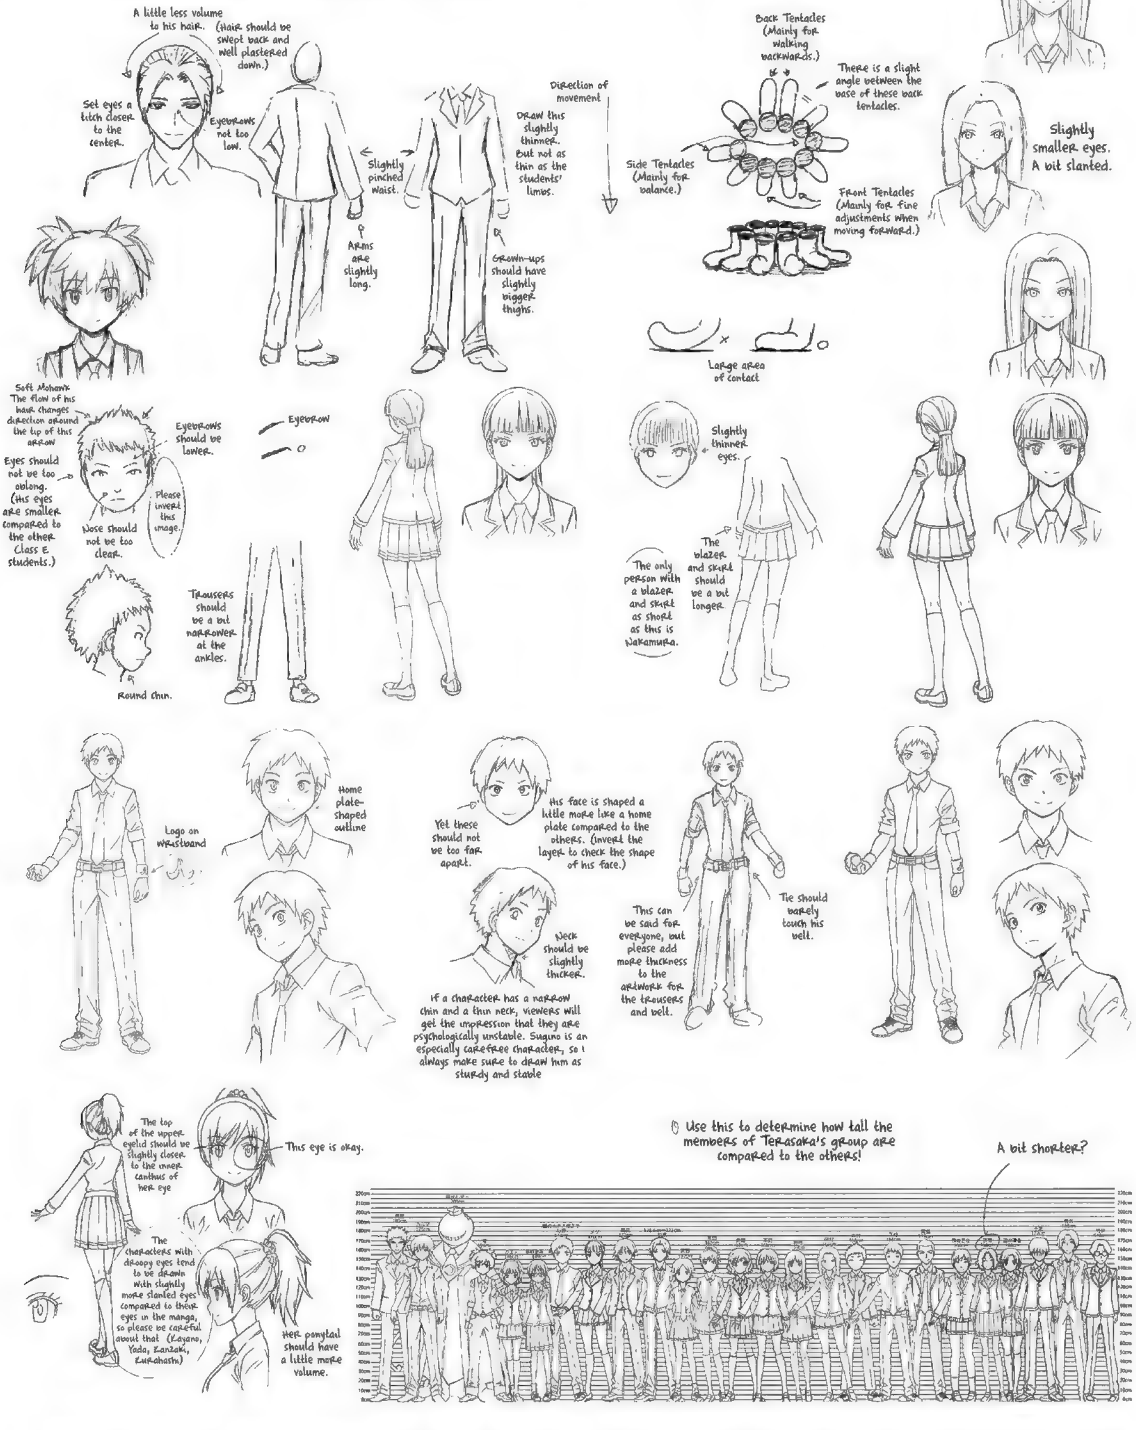
About the Anime

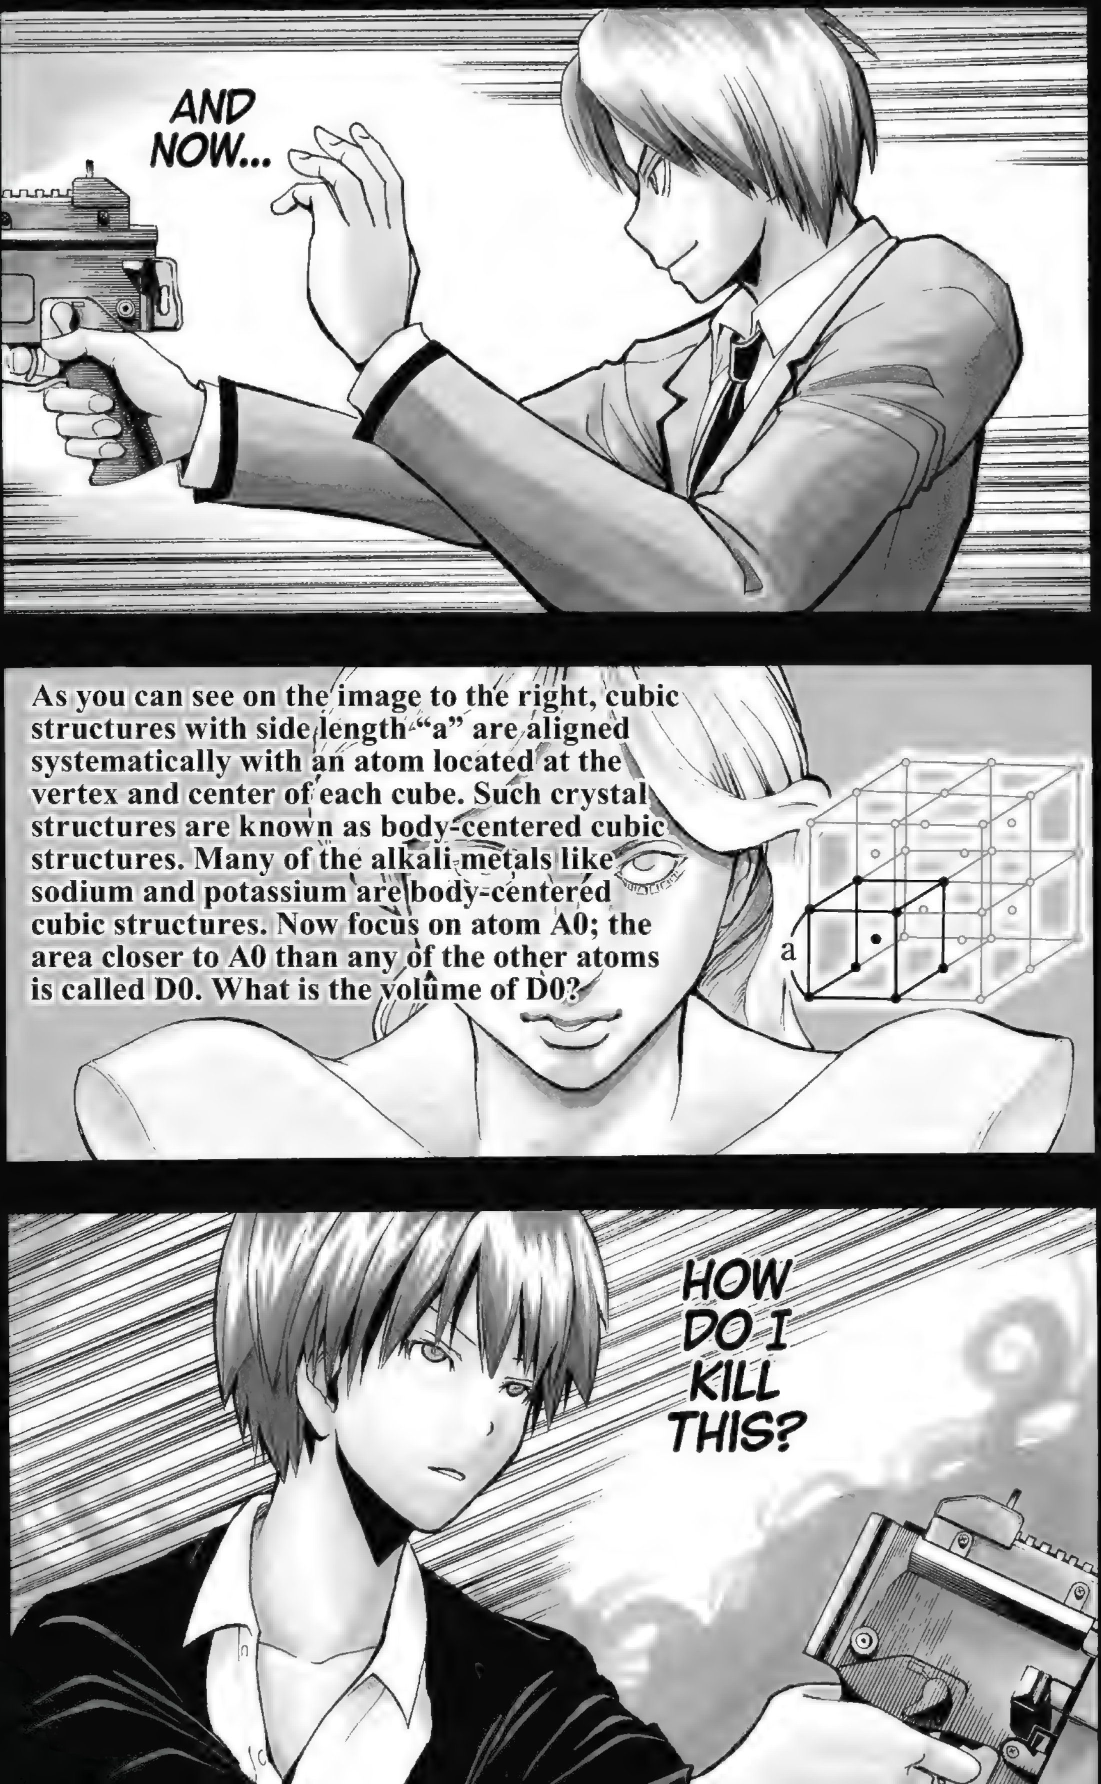
I'm writing this after watching up to episode 11. The quality of the animation in this series is wonderful. It's loyal to the manga yet fills in gaps there weren't room for. That's probably the best and most gratifying result for the fans and the original creator when creating an anime based on a manga. As the creator of the series, I strongly recommend the DVD for those who can't wait to see *Assassination Classroom* in action.



A little less volume to his hair.
(Hair should be swept back and well plastered down.)
Set eyes a titch closer to the center.
Eyebrows not too low.
Slightly pinched waist.
Arms are slightly long.
Draw this slightly thinner. But not as thin as the students' limbs.
Grown-ups should have slightly bigger thighs.
Direction of movement
Back Tentacles (Mainly for walking backwards.)
There is a slight angle between the base of these back tentacles.
Side Tentacles (Mainly for balance.)
Front Tentacles (Mainly for fine adjustments when moving forward.)
Large area of contact
Slightly smaller eyes. A bit slanted.
Soft Mohawk The flow of his hair changes direction around the tip of this arrow
Eyes should not be too oblong. (His eyes are smaller compared to the other Class E students.)
Nose should not be too clear.
Eyebrows should be lower.
Please invert this image.
Round chin.
Eyebrow
Trousers should be a bit narrower at the ankles.
Slightly thinner eyes.
The only person with a blazer and skirt as short as this is Nakamura.
The blazer and skirt should be a bit longer.
Logo on wristband
Home plate-shaped outline
Yet these should not be too far apart.
His face is shaped a little more like a home plate compared to the others. (Invert the layer to check the shape of his face.)
Neck should be slightly thicker.
If a character has a narrow chin and a thin neck, viewers will get the impression that they are psychologically unstable. Sugino is an especially carefree character, so I always make sure to draw him as sturdy and stable
This can be said for everyone, but please add more thickness to the artwork for the trousers and belt.
Tie should barely touch his belt.
The top of the upper eyelid should be slightly closer to the inner canthus of her eye
This eye is okay.
The characters with droopy eyes tend to be drawn with slightly more slanted eyes compared to their eyes in the manga, so please be careful about that (Kayano, Yada, Kanzaki, Kurahashi)
Her ponytail should have a little more volume.
Use this to determine how tall the members of Terasaka's group are compared to the others!
A bit shorter?

As you can see, I've been talking about all the characters in detail with the animators. But until the discussions about the anime, I hadn't really given much thought to how tall Koro Sensei actually was. (laugh)

CLASS 122 | TIME TO THINK OUTSIDE THE BOX



As you can see on the image to the right, cubic structures with side length "a" are aligned systematically with an atom located at the vertex and center of each cube. Such crystal structures are known as body-centered cubic structures. Many of the alkali metals like sodium and potassium are body-centered cubic structures. Now focus on atom A0; the area closer to A0 than any of the other atoms is called D0. What is the volume of D0?

I had someone from Z-kai create this math problem for me. I asked for "college-level exam questions that could be solved with junior high knowledge" and chose the one that fit the themes of the manga.

It took me three days to understand the question so that I could explain it in simple words to heat up the story, but I thought it was a wonderfully interesting problem.

I've finally realized that people who create exam questions like this are skillful artists, and the people who can solve them are excellent game players...

Of course, you don't have to solve the question to enjoy the story, but please take a moment to try if you feel up to it.

What do you think...?

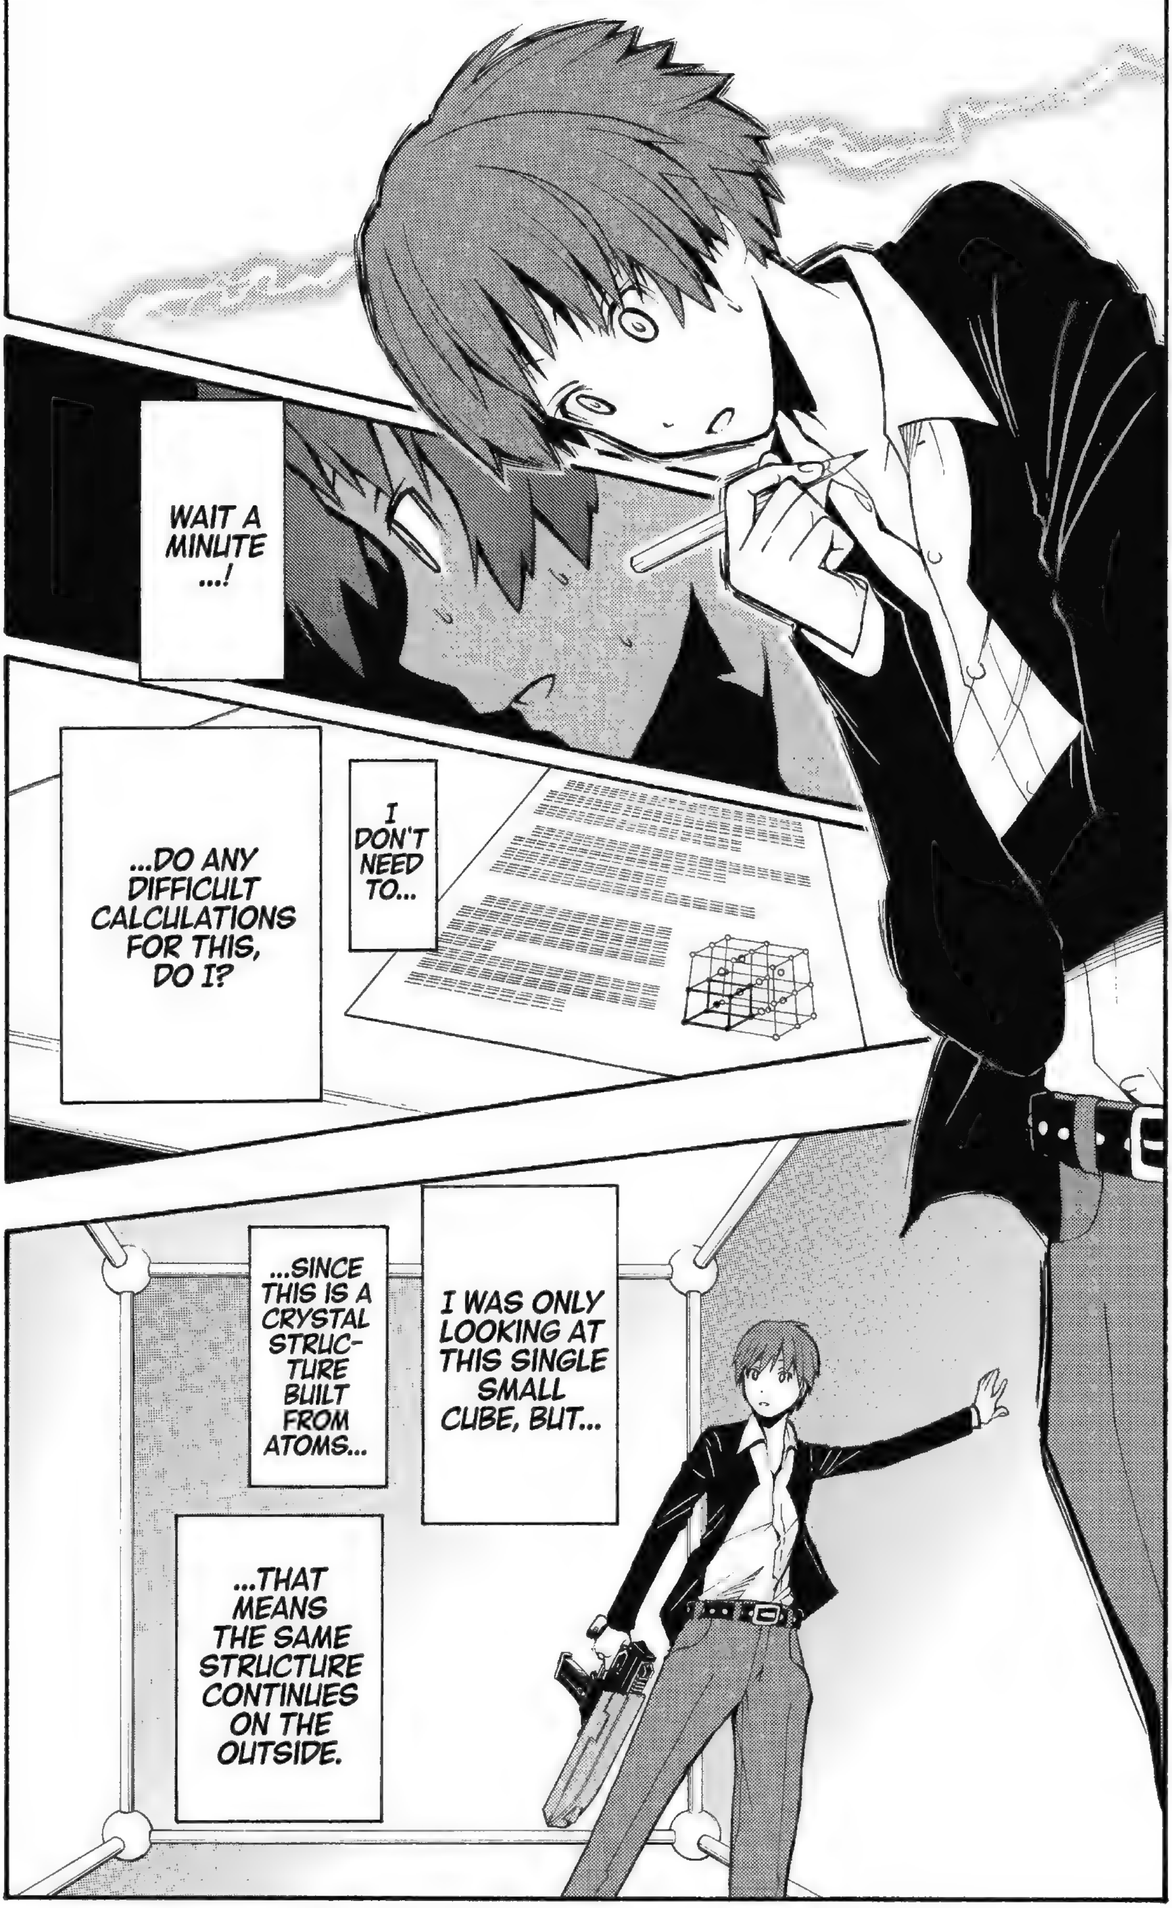
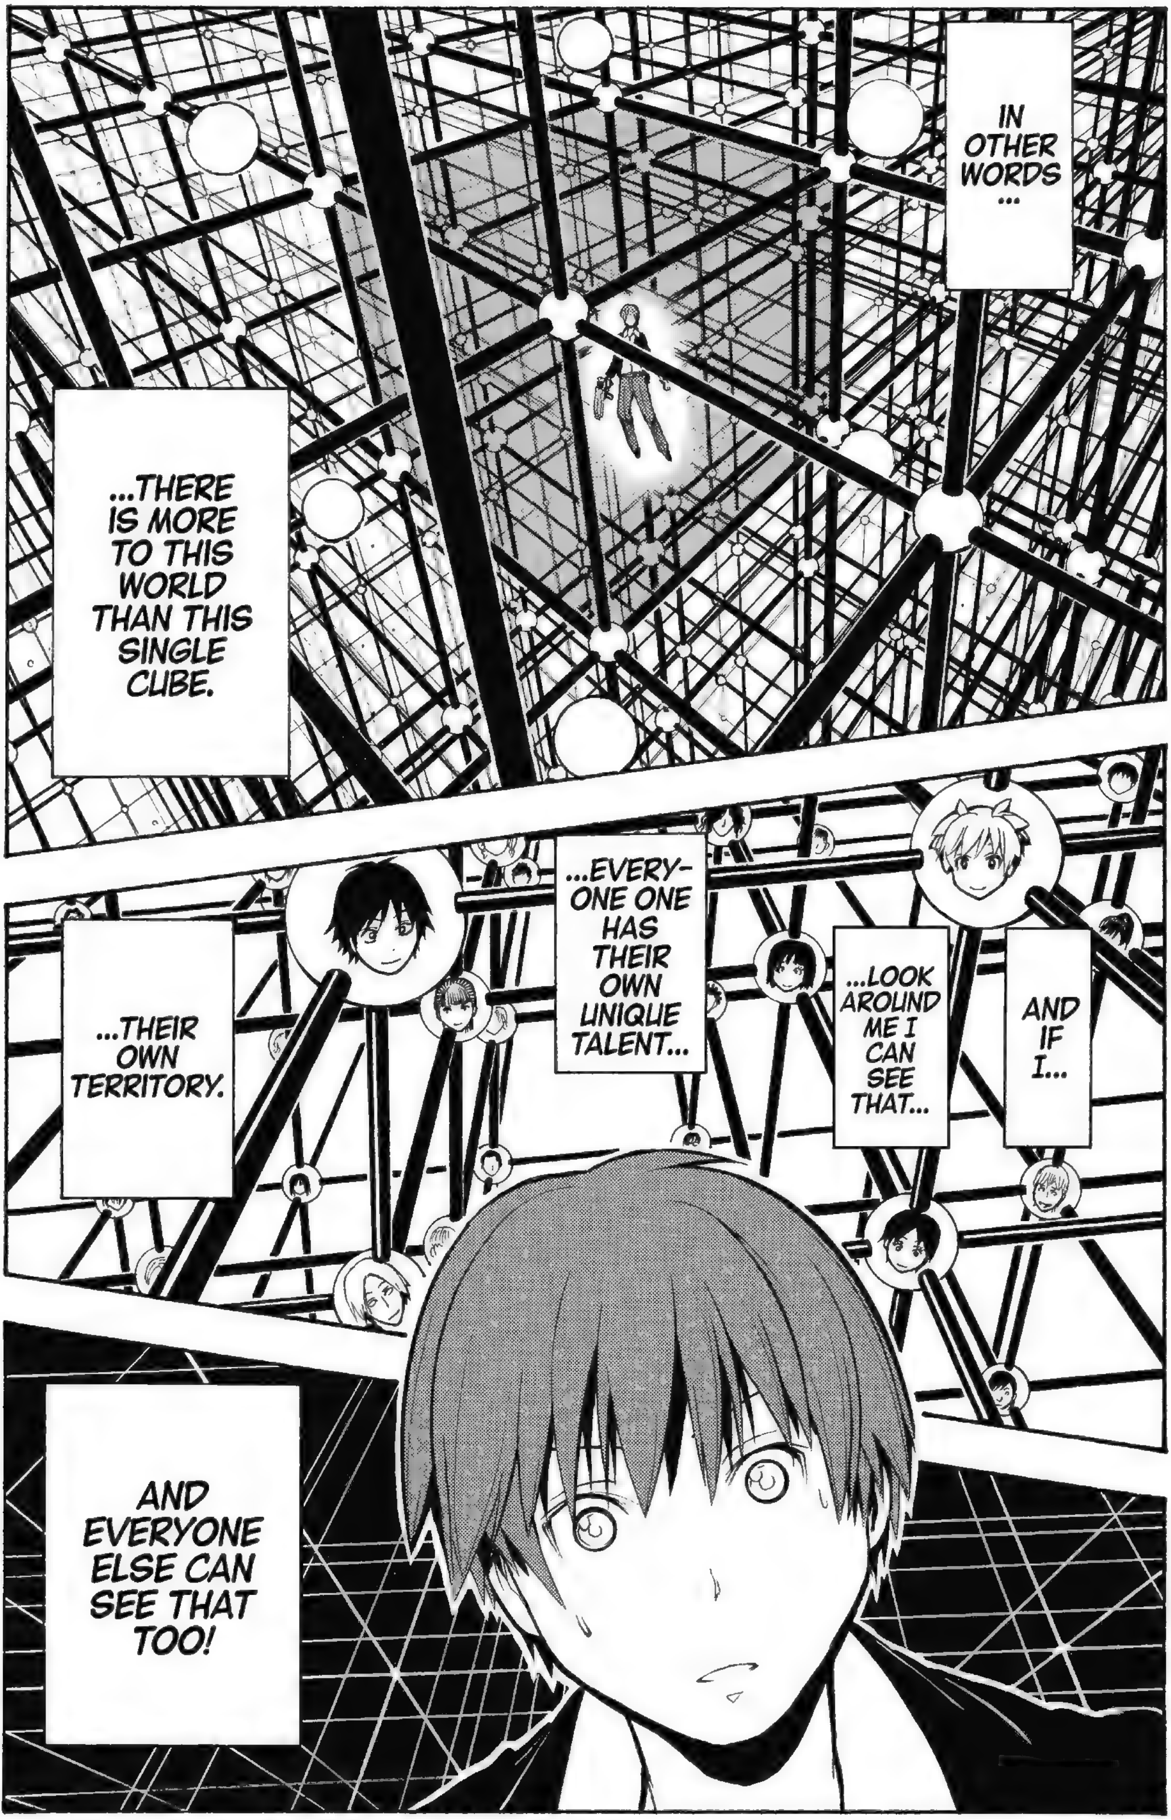
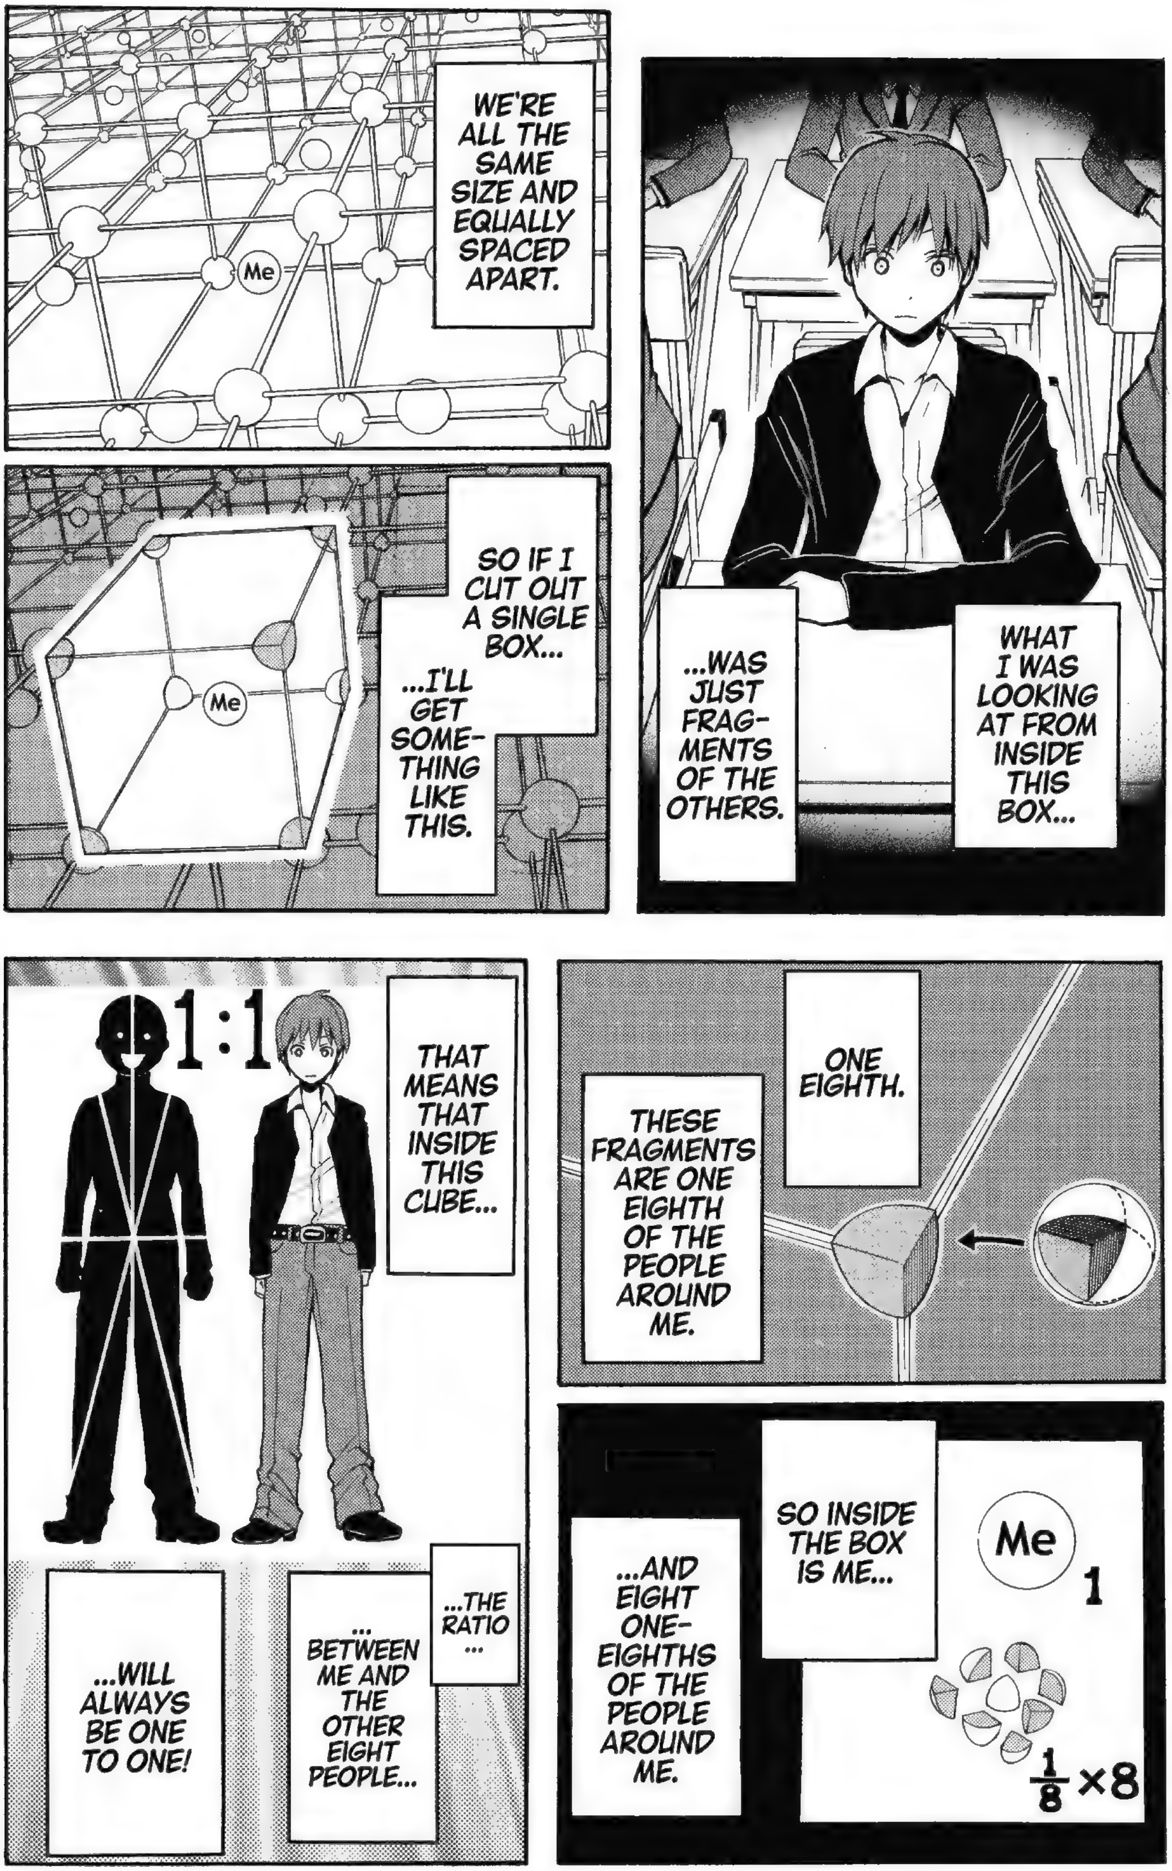
GAKUSHU SHOULD HAVE FIGURED OUT THE REAL INTENT OF THE CREATOR OF THIS QUESTION...
...BASED ON THE FACT THAT HE DIDN'T HAVE ENOUGH TIME TO WORK ON IT...
...AND THAT THE QUESTION WAS ABOUT ATOMS AND CRYSTALS.



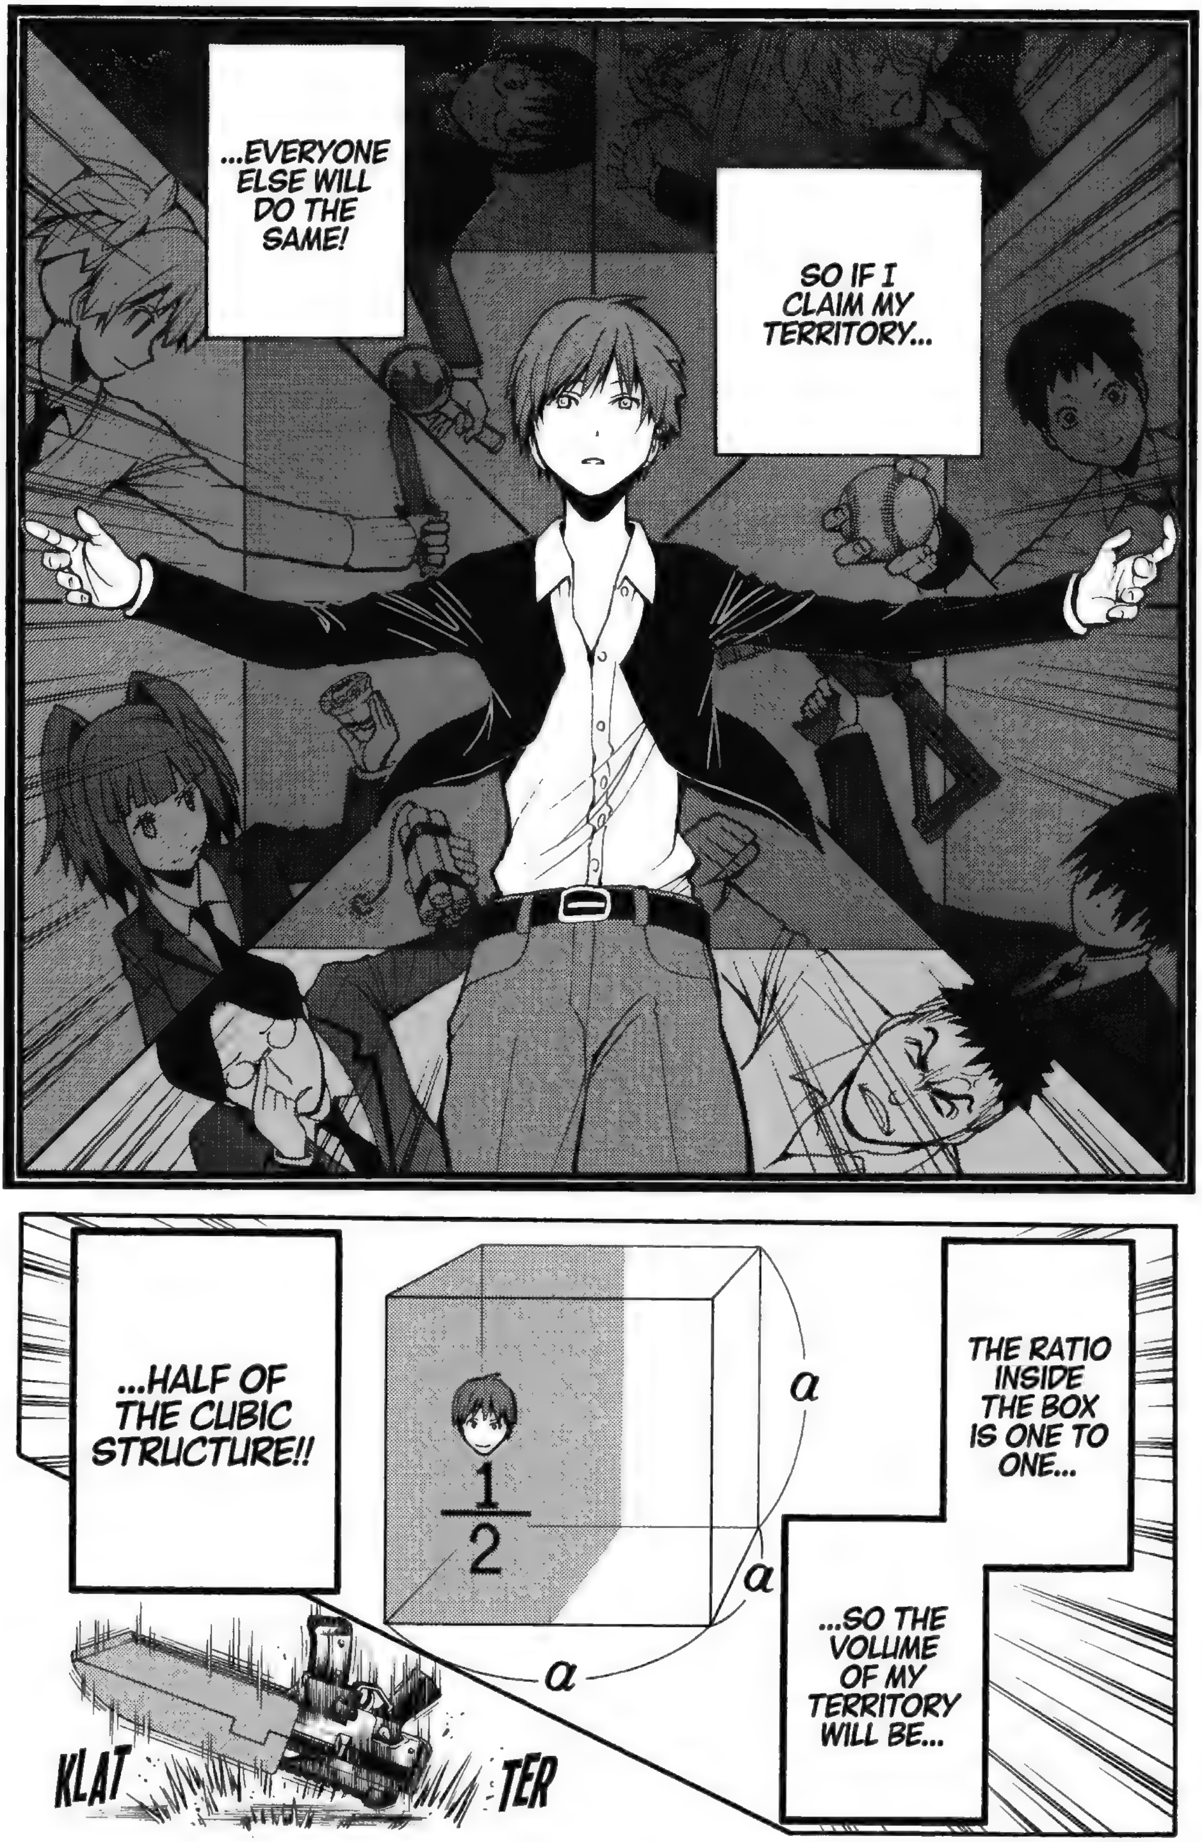
WAIT A MINUTE ...!
I DON'T NEED TO...
...DO ANY DIFFICULT CALCULATIONS FOR THIS, DO I?
I WAS ONLY LOOKING AT THIS SINGLE SMALL CUBE, BUT...
...SINCE THIS IS A CRYSTAL STRUCTURE BUILT FROM ATOMS...
...THAT MEANS THE SAME STRUCTURE CONTINUES ON THE OUTSIDE.



IN OTHER WORDS...
...THERE IS MORE TO THIS WORLD THAN THIS SINGLE CUBE.
AND IF I...
...LOOK AROUND ME I CAN SEE THAT...
...EVERYONE ONE HAS THEIR OWN UNIQUE TALENT...
...THEIR OWN TERRITORY.
AND EVERYONE ELSE CAN SEE THAT TOO!



WE'RE ALL THE SAME SIZE AND EQUALLY SPACED APART.
Me
SO IF I CUT OUT A SINGLE BOX...
...I'LL GET SOMETHING LIKE THIS.
Me
WHAT I WAS LOOKING AT FROM INSIDE THIS BOX...
...WAS JUST FRAGMENTS OF THE OTHERS.
ONE EIGHTH.
THESE FRAGMENTS ARE ONE EIGHTH OF THE PEOPLE AROUND ME.
SO INSIDE THE BOX IS ME...
...AND EIGHT ONE-EIGHTHS OF THE PEOPLE AROUND ME.
Me
1
1/8 ×8
THAT MEANS THAT INSIDE THIS CUBE...
1 : 1
...THE RATIO...
...BETWEEN ME AND THE OTHER EIGHT PEOPLE...
...WILL ALWAYS BE ONE TO ONE!



SO IF I CLAIM MY TERRITORY...
...EVERYONE ELSE WILL DO THE SAME!
THE RATIO INSIDE THE BOX IS ONE TO ONE...

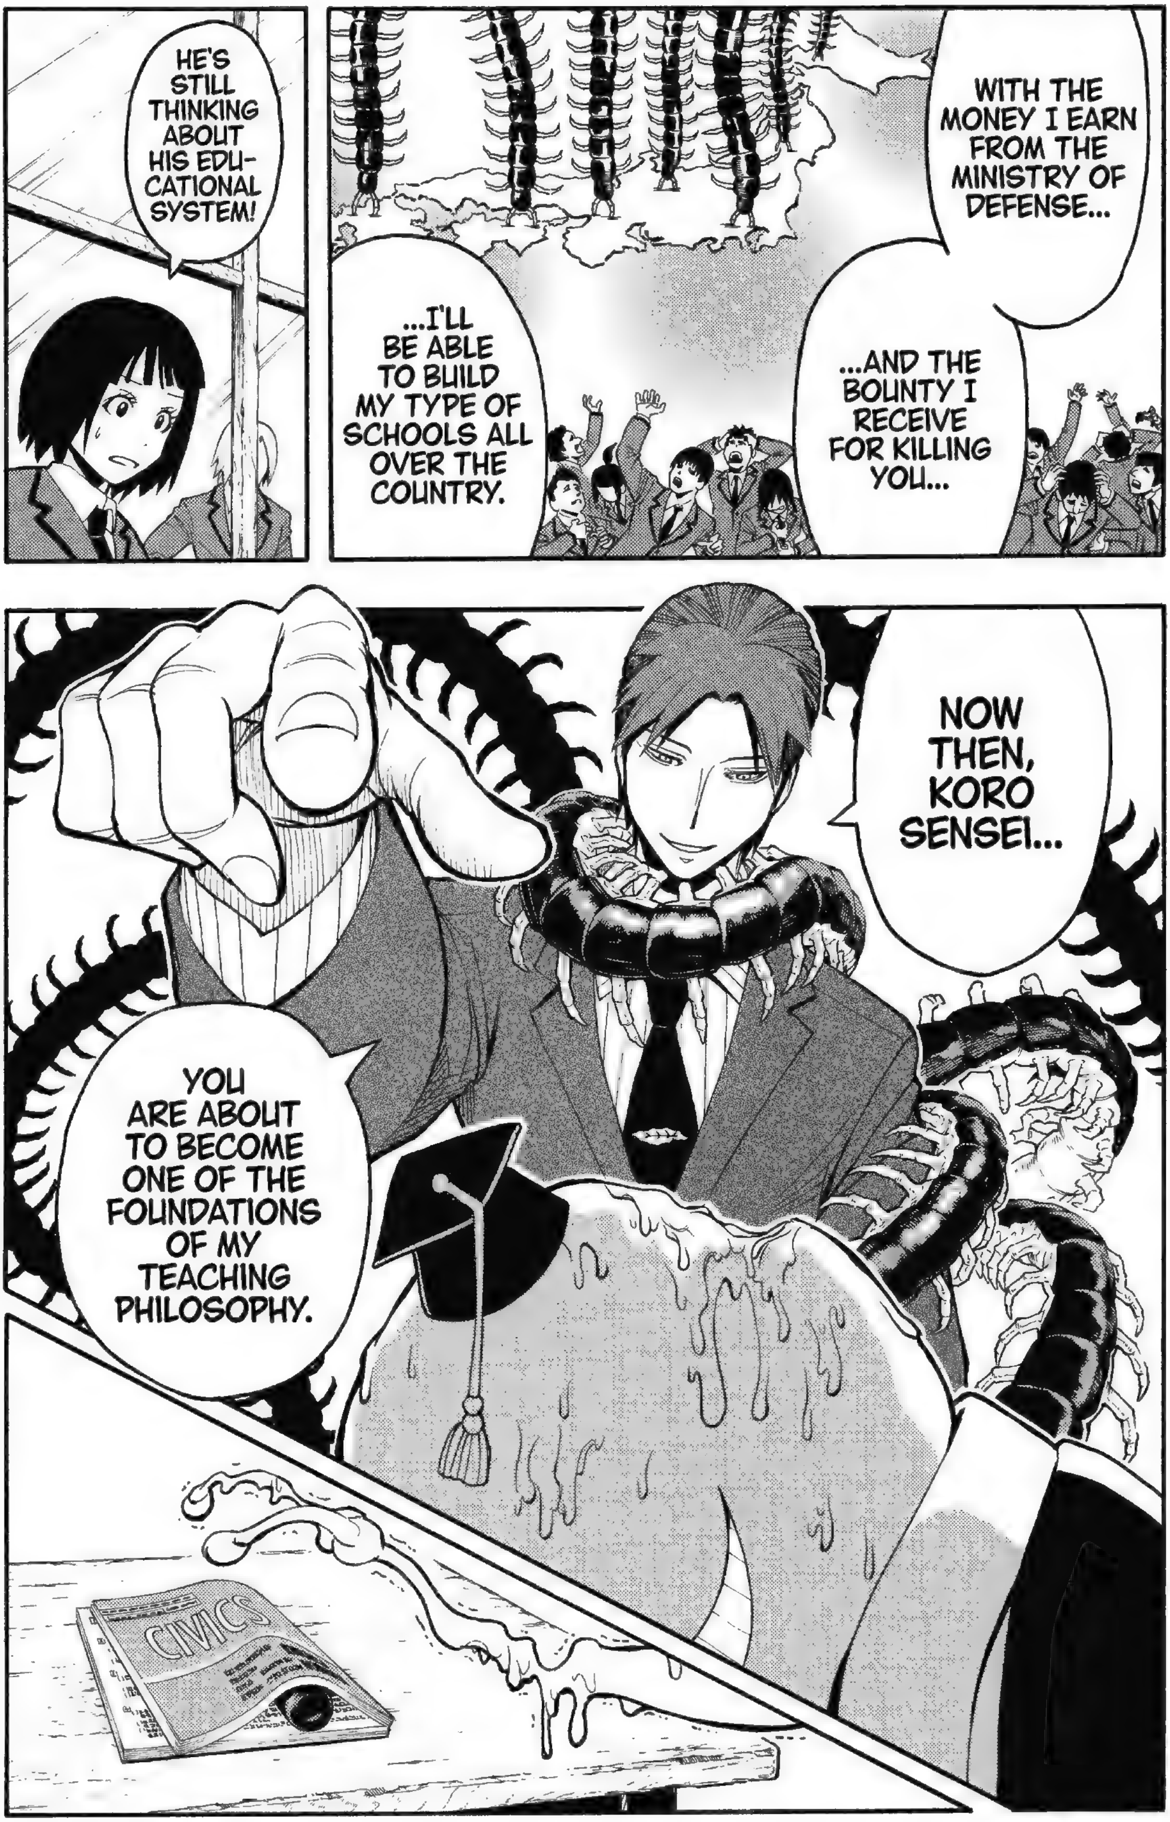
...WITH SUCH A SIMPLE METHOD?!
THIS IS THE PHILOSOPHY I WILL DISSEMINATE THROUGHOUT THE NATION.



WITH THE MONEY I EARN FROM THE MINISTRY OF DEFENSE...
...AND THE BOUNTY I RECEIVE FOR KILLING YOU...
...I'LL BE ABLE TO BUILD MY TYPE OF SCHOOLS ALL OVER THE COUNTRY.
HE'S STILL THINKING ABOUT HIS EDUCATIONAL SYSTEM!
NOW THEN, KORO SENSEI...
YOU ARE ABOUT TO BECOME ONE OF THE FOUNDATIONS OF MY TEACHING PHILOSOPHY.

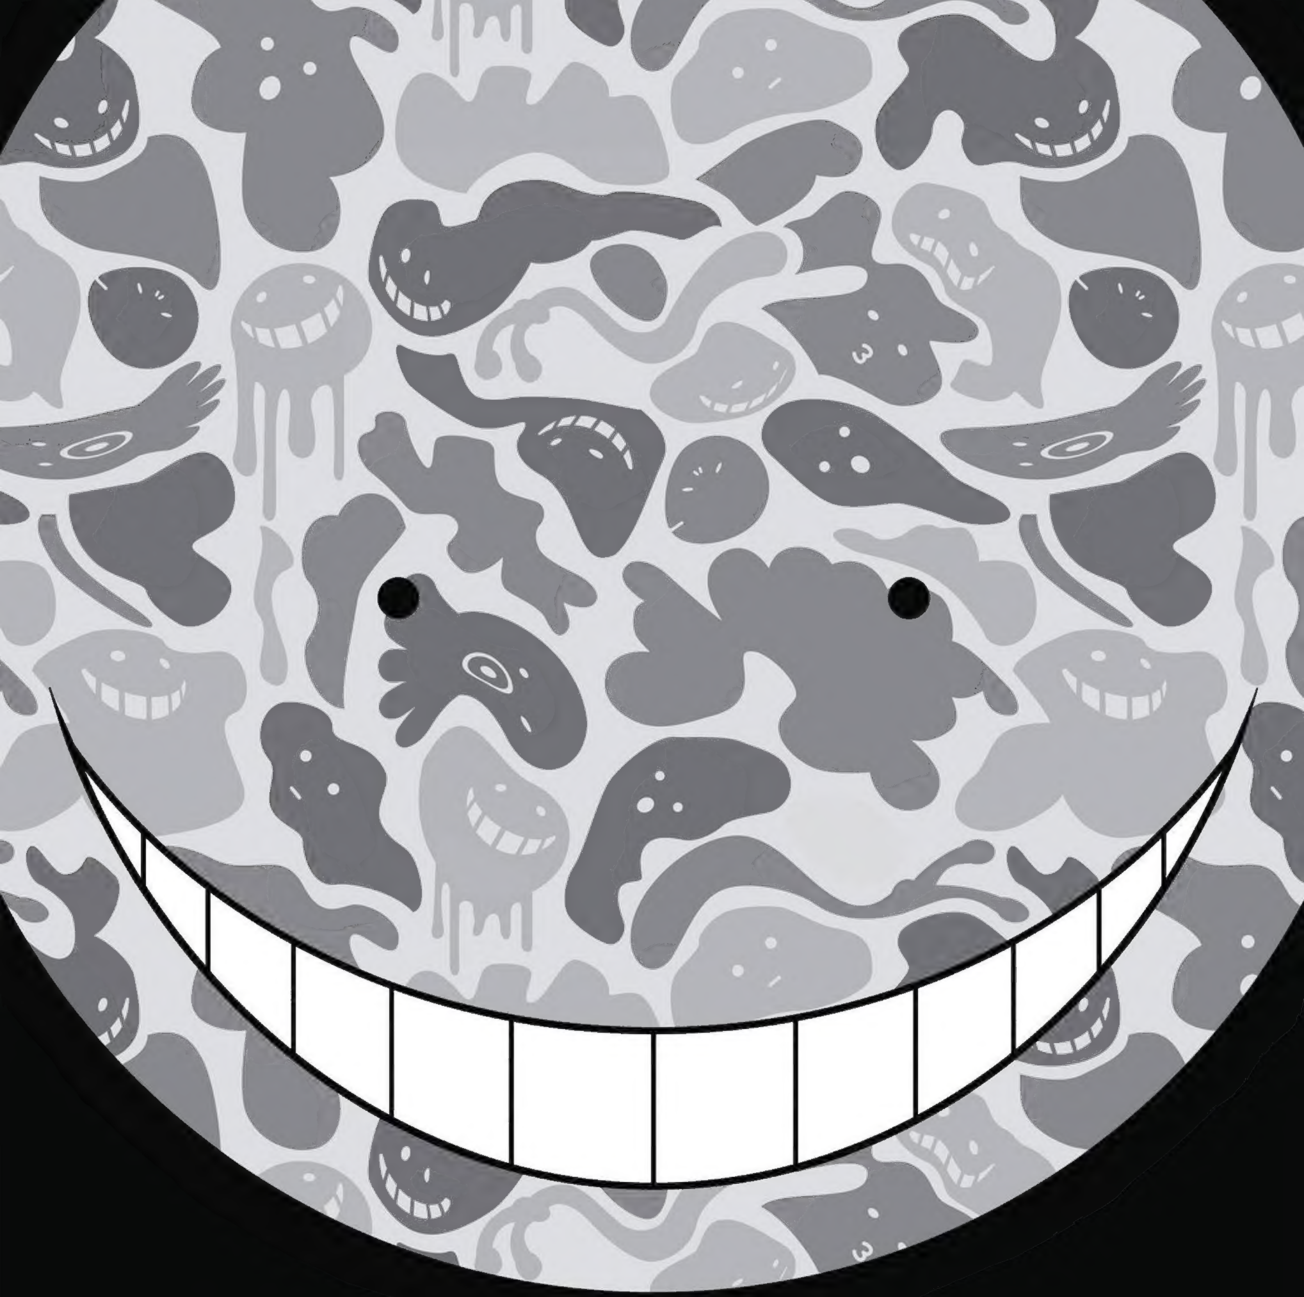
Like many other manga artists, I'm sure, I personally supervise everything related to the *Assassination Classroom* series—such as the anime, live-action movie, English vocabulary/grammar books, and character books—time permitting.

I often propose a variety of projects and provide comments and many specifics about what we should do and how, in hopes of enhancing fans' experience.

I bet the creators and editors are sick and tired of me butting in, but I can't thank them enough for their dedication to fulfilling my vision.

–Yusei Matsui

Yusei Matsui was born on the last day of January in Saitama Prefecture, Japan. He has been drawing manga since elementary school. Some of his favorite manga series are *Bobobo-bo Bo-bobo, JoJo's Bizarre Adventure* and *Ultimate Muscle*. Matsui learned his trade working as an assistant to manga artist Yoshio Sawai, creator of *Bobobo-bo Bo-bobo*. In 2005, Matsui debuted his original manga *Neuro: Supernatural Detective* in *Weekly Shonen Jump*. In 2007, *Neuro* was adapted into an anime. In 2012, *Assassination Classroom* began serialization in *Weekly Shonen Jump*.



How do you like this new pattern? The "Koro Camo" is a camouflage design made up of a variety of faces that hide you from detection by all types of enemies. And if liquefied Koro Sensei happens to be hidden inside the pattern...there's nothing you can do about that!
